SMS SITE MONITORING & CONTROL SYSTEMS

DESIGNED FOR MUNICIPALITIES, CONSTRUCTION, MANUFACTURING & AGRICULTURE

CELLULAR-BASED COMMUNICATION - NO INTERNET OR WIFI REQUIRED

SYSTEM BENEFITS & FEATURES

- 24/7 Monitoring
- Real-time Event Notification
- View Historical data
- Event Critical Temp/Level/Status changes
- Intruder Notification
- Avoid Equipment damage
- Easy Installation & Weatherproof
- Eliminate On-Site Visit/Check
- Works at Powered & Non-Powered Sites

Tank Level

Water
Sludge
Bitumen
Septage

Site Monitor

Power Failure
Intrusion
Temperature
Leak Detection

Input - Events

Tank Level
Device On/Off
Door/Window
Liquid Flow
AC/DC Current On/Off

4 MODELS AVAILABLE

SMS-LT For Sites **With** Available Power

- Single Input Monitoring
- Multi-sensor "daisy chain"
- Site Power Failure Alert

SMS-LTB For Sites **Without** Available Power

- Single Input Monitoring
- Low Internal Battery Alert
- 1-2 Year Battery - Rechargeable

SMS-ST For Sites **With** Available Power

- Multiple Input Monitoring
- Multiple Output Control
- Site Power Failure Alert

SMS-PLUS For Sites **With** Available Power

- Multiple Input Monitoring
- Multiple Output Control
- Temperature & Flow Monitoring

SITE APPLICATIONS

- Manufacturing/Production
- Pumphouses/Lift Stations
- Warehouses/Out-Buildings
- On-Site Equipment/Motors
- Security Monitoring
- Farm Operation
- Wells/Tanks
- Tool & Equipment Sheds

Event-Based Reports, Graphs & Spreadsheets

SMS SYSTEM OVERVIEW

Our **Site Monitoring System(SMS)** provides a cost-effective, compact/self-contained cellular-based weatherproof device with a back-up or operational battery and single or multi-input peripheral monitoring.

Event Activity Monitoring:

Real-Time, Scheduled & Historical

Configurable inputs provide a mix of:

- Dry/Digital Contact On/Off
- Voltage Level Changes
- Temperature Changes

Alerts/Notifications:

- Input Status – On/Off or Open/Closed
- Voltage Threshold – high/low
- Tank Level – High/Low
- Flow Threshold – On/Off/Volume
- Temperature Threshold – High/Low
- Power Failure / Power Restored

Reports:

- Configurable by: Date, Date Range, Input, Event History
- Provides both graphs and report tables
- Web-based (no app or software) to view, print, export by excel or csv format
